Happy Caving!!!!

HALL CRAWL Adventure Tour

Available as a daytime adventure tour. Check website for calendar of availability. Advance reservation highly recommended.

Also included as part of the Muddy Mayhem Overnight Adventure Caving Package.

Min. Age Requirement: 6 years old Tour Duration*: Approximately 2 hours

The Hall Crawl Adventure Tour is the perfect introduction to caving for kids!

Planning For Your Caving Trip: Helmets and helmet lights are provided by Cumberland Caverns for use on this tour. Everyone participating in this tour must take a test crawl through “The Box” (approximately 12-inches tall, by 33-inches wide). This box was created to represent the smallest spaces everyone will be crawling through. Participants may bring their own camera and/or additional light source on this tour, however it is not necessary. In addition, please keep in mind that any type of camera or phone could end up broken – take them at your own risk. Chewing gum, food, drinks, and laser pointers are prohibited. This tour tends to be easier for kids and more difficult for adults.

What To Expect: Your guide will give you a quick orientation on safe caving and check to verify you are

wearing all required apparel. After crawling through the test box they will fit you with a helmet, then turn on the headlamp to begin your trek to the back of the historical Ten Acre Room. During the tour you will be climbing up and down ladders, doing a lot of crawling on your hands, knees, belly, and even scooting on your side through tight passageways such as the Lemon Squeezer. Tighten up your shoe laces as you prepare to tackle the unforgettable boot-sucking mud of “Bubblegum Alley”, test your balance on the “Dragon’s Back”, then slide down our natural formed mud slide to complete this tour. You

can expect to have A LOT of FUN and MEMORIES you’ll never forget!! This is a guided tour along a specified, approved route in the cave, you must stay with your guide at all times. This tour is more difficult for full-grown adults than for children.

***All tour duration times vary depending on performance of each member of tour group.**

What To Wear For This Tour: REQUIRED: Bring & wear gloves, sturdy, lace up, closed-toe shoes or boots, and LONG pants. HIGHLY recommend knee pads. We recommend wearing clothes and shoes that you do not mind getting muddy/wet, stained, or torn. We suggest a T-shirt or thin, long sleeve. You can NOT wear shorts. You may also wish to bring a change of clothes/shoes for after the tour is complete, to keep the inside of your vehicle from getting muddy. We do not recommend wearing jewelry, such as necklaces or bracelets, on this tour. Pure water is the only beverage permitted on this tour. Helmets and headlamps will be provided for use on the tour.

Discovery Walking Tour

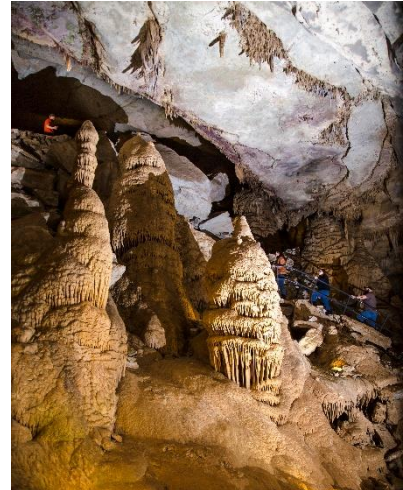

Offered daily at various times, check our website for a calendar and schedule. Also included in some of our Overnight Adventure Packages, though tour may be slightly modified to accommodate overnight activities.

Minimum Age Requirement: None Tour Duration: 1.5 hours Difficulty: Mildly Strenuous

For this tour, you are in the upright, walking portions of the cave – there is electricity and no need for helmets, headlamps, crawling, climbing, or getting muddy. Guests will view some of the largest rooms and passageways on this tour, the world-famous Volcano Room, one of our waterfalls and gleaming pools; while hearing about the history and legends of the caverns, some of the men who explored it, and information about the formations you see.

This tour is approximately 1 ½ hours long, guests will be walking 1 ½ miles in distance total. You will be on your feet for most of the tour duration.

This tour is considered mildly strenuous – the paths on this tour are uneven, there are steep uphill/downhill slopes, bumps, and a couple of different sections where stairs are involved. On this area of tour, guests cross up and over a mountain inside of the cave to see our CINEMATIC showcase. There is a total of 350 uneven, natural stone steps used to cross the mountain and back on this section of the tour. You are in for a treat, though! You get to sit for about 10 minutes to catch your breath and watch the stories of Cumberland Caverns come to life with video projected directly onto the cave walls & formations, and surround sound to truly immerse you in the experiences. When the Cinematic Showcase is completed, guests will cross back over those steps. After returning to the front of the mountain, guests will go down a separate area that contains less than 30 uneven steps.

THESE STEPS ARE NOT OPTIONAL unless the ENTIRE group chooses to skip them! Safety & Security Requirements mean you must be under direct supervision of a Cave Crew member at all times you are in Cumberland Caverns.

We recommend wearing athletic-style shoes best-suited for walking or hiking (no sandals/flip flops). The cave is 56 degrees Fahrenheit year-round with 99% humidity. Some guests feel cool immediately upon entering the cave, but warm up after a few minutes of moving around. If you wish, you can bring a thin, long sleeve shirt or jacket.

Please note: Our cave is a NATURAL feature. The cave is not handicap accessible due to the uneven pathways, natural-stone stairs, steep uphill and downhill slopes, and there are some areas that do not have handrails. Strollers, wheelchairs, etc. will not make it through the cave. We strive to keep the cave as natural as possible, but make it safe for our guests to enjoy.

THANK YOU FOR CHOOSING CUMBERLAND CAVERNS FOR YOUR OVERNIGHT ADVENTURE DESTINATION

We are excited to share with you the wonder & adventure of Cumberland Caverns! We want everyone to have fun, know what to expect and how to prepare for their overnight adventure in the cave. **Please make sure everyone receives a copy of this entire packet of information as well as completes their ONLINE digital waivers PRIOR to arrival.**

Important Things to Remember:

- **We are located in the Central Time Zone). Make sure you have the arrival time and location.** If you arrive late we cannot guarantee you will make the tours. Once the gate to the parking lot and the cave doors are locked you are not able to join.
- **Pack everything you will need for the overnight, but remember to pack light.** You will have to carry your own gear down into the cave. It is roughly 600 yards from the gift shop to the room where you will be sleeping. The trail through the cave is uneven, rocky, with steep uphill and downhill grades. We cannot haul guests or any of their gear into or out of the cave. Prior to entering the cave, please make sure you have everything you will need for the entire night, including all gear, any medications, etc. **After you have entered the cave, cave doors will be locked for the evening - this is for the safety & security of all of our guests.**
- Please make the overnight manager is aware of any special medical conditions. If you have food allergies you should indicate them while completing the online waiver. If you need to bring special food you must package it securely, write your full name on it, and turn it in at the gift shop PRIOR to entering the cave. It will be safely stored inside the SnackBar until it is time for your meal. **You may NOT carry ANY food or drink into the cave in your overnight packs.**
- **Your group may have a late night, and therefore may be eating dinner late.** Please prepare for this by eating a light meal prior to arrival (light meal because there are no bathrooms along the adventure tour route).
- **“The Box”** – Everyone going on the Adventure Tour(s) included in the overnight packages must crawl through our test box before departing for the tour (dimensions for the box are roughly 12-inches tall by 33-inches wide). This box helps simulate the smallest crawl spaces on these tours. Making it through this box is a must in order to go on the adventure tours. We can not tell you if you will fit over the phone or email because people carry their weight differently. With two people of same height and weight one may fit through the box and another may not. The best method is to make a box with these dimensions and see if you can squeeze through.
- **One Group Leader will come into the gift shop to check-in.** ONLY the group leader should go in the gift shop, the rest of your group should stay outside near their vehicles until you are checked in and assigned a meeting place. Please don't loiter in the gift shop unless making purchases. We still have other guests from daytime walking tours and adventure tours that we may need to finish with so that we can start your overnight activities on time.

- **Tennessee Tax Exempt Form, or a Federal 501C3 (if applicable). Tennessee Tax Exempt Form, or a Federal 501C3 (if applicable).** *If you are a tax exempt organization you must call us to set up your reservation as tax exempt PRIOR to making a reservation online.* CURRENT documentation of tax exemption, issued Federally or by the State of TN, must be emailed to rsvp@cumberlandcaverns.com. **We can not retroactively apply a tax exemption to a reservation that was already made.** We can NOT accept tax exemptions from other states.
- **Your tour guide will assign the group/organization a campsite in the Ten Acre Room** – it is VERY important that your group place their gear within their specific camp area to ensure there is enough room for all groups of guests. Be respectful of other overnight guests!

Final Payment & Final Headcounts **Participants may be added to a reservation until 10-days before the date of your visit, and as long as space is available. Space is only guaranteed for the participants that paid in full in advance.** During peak season it isn't unusual for nights to book up several months in advance!

All tours are nonrefundable. Please review the cancellation policy located later in this document. Any cancellations MUST be made according to that policy to receive any future credit, issued in the form of a digital gift card code. This gift card is ONLY valid for future cave tour reservations.

We do have an open WiFi network in the Volcano Room, however it is NOT a guaranteed service. We ask that it be used sparingly – embrace the full Caveman Campout experience!

Remember: Cave exploration can be a lot of fun, but to ensure the safety of everyone attending we have some rules that must be followed. Cave preservation and our guest's safety are BOTH extremely important to us at Cumberland Caverns.

1. Discipline is to be maintained by the adults in the group. An unruly group can be very dangerous.

Failure to comply with all rules below could result in your expulsion from the cave.

2. Cave vandalism of any form will not be tolerated! This includes but is not limited to writing on walls, mud balls, mud sculptures, breaking formations, etc. It is a felony offense to damage the cave or harm any of the inhabitants. Violators will be prosecuted.

3. Gloves are REQUIRED to participate in ADVENTURE tours.

4. Outside food and drinks CAN NOT be taken into the cave except by person with medical reasons. Arrangements must be made PRIOR to entering the cave.

5. Water bottles are permitted. DO NOT pour any liquids, including water, onto the cave floor! The humidity means the mud puddle that creates can be there for WEEKS!

6. All food and drinks must be consumed in the dining area only (the Volcano Room).

7. No running!

8. Stay together, with your group, and behind your guide on the designated trails.

9. No rock climbing or rock collecting!!!

10. Use designated restrooms ONLY!

11. Each person on the caving/adventure trip MUST have a headlamp (these and helmets are provided by Cumberland Caverns for use on such tours).

12. Place all litter into trash cans.

13. No smokie or vaping products of any kind inside the cave.

14. No drugs, alcohol, or weapons of any kind- this will not be tolerated!

15. No one is permitted to leave the cave or designated camping area unescorted by a staff member after entering. Make sure each person in your group has EVERYTHING they need for their overnight stay prior to entering.

16. While people can bring and use their own headlight, we DO NOT allow people to bring and use their own helmet. Bring extra batteries if you use your own personal headlamp (instead of ours) on the adventure tours.

17. Do NOT disturb any bats or animals. Keep your distance, do NOT take flash-photography of the animals, and let them sleep! Bats have been suffering due to WNS- If they don't get their sleep (in the winter especially!) they could starve & die!

18. RESPECT your tour guides. They are highly trained. Follow all instructions given by your tour guides and overnight leads. It's impossible to list every rule and regulation. Following their directions is not optional.
